

**Motion Sheet**

I move to amend Item 6 as follows:

1) BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

The City Manager is directed to immediately initiate actions to ensure ~~and bring any necessary ordinance back to the Council no later than its March 25, 2021, regular meeting~~

- a. A centralized list of places without water in Austin & Travis County. One central help line should be established to address prolonged water outages, and this line should be publicized across languages to support tenants and homeowners alike. The City should publicly report on the number of outages remaining in our area, and how close we are to achieving our goal of zero outages.
- b. Immediate water resources targeted to those areas identified as having prolonged water outages, with a focus on places where those with least access to other options live. These water resources should account not only for drinking water, but for the water needed for cooking, cleaning, sanitation, etc.
- c. A coordinated city effort to ensure that low- and moderate-income homeowners have the support they need, that landlords diligently get running water at their properties, and that tenants know their legal rights and options. Resources should be provided to support tenants, including tenant-organizing resources.
- d. Address short term housing needs for those displaced due to housing damage and repairs process
- e. Immediate resources and implementable plans that result in or lead to long term housing stability and resiliency for people experiencing homelessness that were impacted by the recent disaster, especially for those that left the streets and received shelter or hotel accommodations.

I move to amend Adler Amendment 1 to Item 6 as follows:

2) BE IT FURTHER RESOLVED:

The City Manager is directed to report back other recommended actions related to disaster relief and bring any necessary ordinance back to the Council no later than its March 25, 2021, regular meeting. Recommended actions should include, but not be limited to:

- ~~• Immediate resources and implementable plans that result in or lead to long term housing stability and resiliency for people experiencing homelessness that were impacted by the recent disaster, especially for those that left the streets and received shelter or hotel accommodations.~~
- Any modifications to the wastewater averaging period for 2021
- Plan for mitigating the spike in water bills residents may see due to water leaks
- ~~• Immediate resources and plans to coordinate response to apartment complexes with prolonged water outages, including how to support tenant resources.~~
- Consider creating a one stop shop for all recovery resources, including FEMA and development services related resources.
- ~~• Plan to address short term housing needs for those displaced due to repairs~~
- Home repair funding and resources
- Identify how to address any gaps in FEMA individual assistance resources
- Plan for a formal review of the disaster and the response with the goal of avoiding future disasters to the extent possible and making improvements to the response efforts
